SUPERINTENDENT'S CORNER
July, 2020

Mask Required
Per the State of Washington guidelines, as of June 26th 2020 we will need to require that mask be warn in our school facilities by employees, students, parents and visitors alike. We ask for your understanding and support in this effort to keep each other healthy.

20-21 School Opening Plans
Due to the uncertainty of the situation and the constantly changing guidance, we are hopeful that by the first week of August we can provide a plan for the reopening of school for students on August 26th! We are aware that people would like a firm direction so plans can be made (so would we) but with this constantly changing landscape it is premature to hypothesize at this point.

What we do know and this could change, is some alterations will be needed in order to conduct school. We have been firmly told that mask will be required of all and that 6’ spacing of students in the classroom will be required. When we know more and are somewhat insured it will not change again, we will share a reopening plan outlining some of the basic adjustments we will need to implement in order to start school this fall.

Summer Food Service Program
The SFSP-Summer Food Service Program rules have again been extended to allow us to continue providing food support, so we plan to continue with the Monday morning food deliveries through the end of July

School Facilities
We have been trying to complete our paving project for several weeks now, but experiencing delays because of the weather. There are some photos posted on the Web Page showing some of the work being completed. We are also in the process of adding a restroom to the weight room facility and painting the outside of the upper gym.

We are preparing a plan to allow some limited and tightly controlled athletic practices in the next couple of weeks, but the facility remains closed for most other uses.

Have a great day!
